Agro-ecology Learning alliance in South East Asia

Case study template

Agro-ecological good practices in Lao PDR

Date: 09 November 2023
Name: Phouthasin Phimmachanh
Position: Director of CLiCK

Scope

- Objectives are to a) document and share AE good practices (14 cases) and b) strengthening capacity to ALiSEA members (case owners) on their practices and KM techniques.
- Character of the case: Short, Precise, Enough to understand overall picture, Attractive and has contact to learn more in detail.
- Timeframe: 18 Months (March 23 to Sep 24)
- Target groups: a) ALiSEA members (to learn), b) other development stakeholders (to tryout and scale up)
- Type of media: a) written cases and b) short video
- Dissemination: a) online platforms and b) face to face knowledge fair

Criteria for selection of AE cases (verified by a consultation workshop in Oct 2023)

No	Livelihood of small holder farmer	Remark (✓)	No	Natural environment	Remark (✓)
1	Higher yield or stable yield		6	produces less carbon emissions	
2	Labor saving		7	produces less pollution such as plastic waste, harmful chemical residues	
3	Reduction of external inputs (need to buy from outside local community)		8	does less harm to other elements in the ecosystem	
4	More profit from cultivation or cash income from farming		9	uses less natural resources in the agricultural system	
5	improved production planning (response to changes in weather, opportunities market and pest diseases)		10	Contributes to improving the environment in the long term, such as soil improvement, balance ecosystem.	

Table A summary of agro-ecological good practices in Laos

Activities	Location	Implementer	Contract	Good practice will include 10 indicators (√)																
				1	2	3	4	5	6	7	8	9	10							

Template for the case

1. Name of the case
2. Contact information (Photo of the person, name, address, phone, email, facebook...)
3. Description of the case (Why, What, How, Results)
4. Analysis (Strength, weakness and ways to improve, assessment score)
5. Recommendation for scaling up
