

Regional Academic Conference on agroecology transition on the Mekong Region

Speaker profiles

24th & 25th January 2017,
Yezin Agriculture University, Myanmar

Charitable Foundation
Cartier

Dr Theingi Myint

Yezin Agricultural University, Myanmar
theingi.myint@gmail.com

Dr Theingi Myint is an Agricultural Economist working in the field of rural development especially agricultural marketing, project planning and management and socioeconomic impact assessment. She has a PhD in Agricultural Economics within the Sandwich Program of Justus Liegburg University, Giessen, Germany and Yezin Agricultural University. For her PhD, she had done the research on “Myanmar Rice Market: Market Integration and Price Causality”. She started her career in Yezin Agricultural University since 1992. She has more than 24 years of work experiences in University and rural development projects with some International Organizations such as ICRISAT, SEARCA, IRRI, CSEAS-Kyoto University, ACIAR, FAO, World Bank, ADB, ERIA, IDE-Jetro, and HELVETAS during which she has gained experiences in rural agricultural marketing, socioeconomic impact assessment, sustainable livelihood development, sustainable agricultural development, labor migration management and gender. Since January 2014, she is working as Coordinator of ACIAR Project: “Strengthening Institutional Capacity, Extension Services and Rural Livelihoods in the Central Dry Zone and Ayeyarwady Delta Regions of Myanmar” and “Increasing Productivity of Legume-based Farming Systems in the Central Dry Zone of Myanmar” up to 2017. At the meantime, she is working as an Associate Professor of Department of Agricultural Economics, Yezin Agricultural University, Nay Pyi Taw, Myanmar.

Dr Than Da Min

Yezin Agricultural University, Myanmar
minagro.td4@gmail.com

Dr Than Da Min was born in Yangon, Myanmar in November 20 1964. She went to primary and secondary schools at Yenanchaung and high education at No. 1 Pabedon High School, Yangon. She completed her BSc Ag Degree in 1986, MSc Agr in 1993, both at the Yezin Agricultural University, Myanmar. She started her professional career as a demonstrator in the Agronomy Department of Yezin Agricultural University in 1989. In 1995, she went to Tsukuba International Training Center (TBIC), Japan for Rice Production Training under the JICA project. She got PhD from University of Putra Malaysia UPM in 2004. She wrote papers in Journals, Seminar Proceedings and Poster Presentations. She got married to Dr. Tun Naing in 1993 and they are blessed with a son, Min Pyae Sone. She is working as an Associate Professor at Yezin Agricultural University.

Dr. Nyein Nyein Htwe

Yezin Agricultural University, Myanmar
htwe1971@gmail.com

	<p>Dr Nyein Nyein Htwe, Associate Professor from Department of Agronomy, Yezin Agricultural University, is graduated from Yezin Agricultural University in the field of field crop production. After graduation, she joined to Department of Agriculture as an extension agent. In 1996, she was appointed as a demonstrator in Department of Agronomy, YAU. Now she is working as an associate professor since 2014. She continued her postgraduate study and got Master Degree specialized in Agricultural Extension Education in 2001. In 2010, she finished her PhD study from King Mongkut's University of Technology Thonburi, Thailand in the area of post-harvest Technology. She got Crawford Fellowship award 2016 and developed new curriculum and syllabus for agricultural extension under the supervision of Australian Professors. She is doing researches in collaboration with JICA, ACIAR and other local and international organizations.</p>
	<p>Dr. Than Than Sein Myanmar Organic Grower and Producer Association thanthan.sein@gmail.com</p> <p>She had graduated B.Ag in 1984. Master of Science in Food Engineering and Bioprocess Technology Program, Asian Institute of Technology, Thailand in 2005. Ph.D in Applied Microbiology and Biotechnology was achieved from University of Camerino, Italy. She worked as Government Agriculture teacher for 18 Years services in State Agriculture Institute and Yangon Technological University, She was Visiting Professor in Mahasarakhan University, Thailand Now she is also working as Visiting Professor in Mandalay Technological University Biotechnology Department. Now carrying out the Organic farming in Myanmar with PGS certification initiatives</p>
	<p>Dr Nyo Mar Htwe Yezin Agricultural University, Myanmar nyomarhtwe@gmail.com</p> <p>Dr. Nyo Mar Htwe is lecturer at Department of Plant Breeding, Physiology and Ecology, Yezin Agricultural University. She holds Ph.D. (Plant Breeding) from UPLB, Philippines (2011). She had more than 15 years of working experiences in germplasm collection, characterization and evaluation, screening for biotic and abiotic tolerance rice varieties, breeding rice and maize, yield trials for climate adapted rice varieties. Currently she is carrying out and involving the YAU rice breeding program to select promising adapted varieties for the long term climate and environmental changes. Moreover, she is doing Climate Change related research in collaboration with CCAFS, CGIAR, PIRCCA, IRRI and some contribution to formulate Myanmar Climate Smart</p>

	<p>Agriculture Strategy. She has supervised some master and post graduate diploma candidates for their thesis research in the field of plant breeding and plant genetic resources conservation and management.</p>
	<p>Dr Pao Srean University of Battambang sreanpao@gmail.com</p> <p>Dr. Pao SREAN currently holds the position of Dean of Faculty of Agriculture and Food Processing at University of Battambang (UBB). He obtained a Bachelor of Science in Agronomy at Royal University of Agriculture (RUA), Cambodia in 2006, Master of Science in Integrated Management of Agricultural and Rural Development at RUA in 2009, and Ph.D. in Experimental Sciences and Sustainability at University of Girona, Spain in 2015. His main research fields are plant and soil science for sustainable agriculture. He also works on “Development and dissemination of sustainable production system based on invasive pest management of cassava in Vietnam, Cambodia and Thailand”.</p>
	<p>Dr Surat NUGLOR Maejo University, Thailand snuglor@hotmail.com</p> <p>Dr. Surat NUGLOR is Assistant Professor / Assistant to the President of Maejo University, Thailand. After graduating M.Sc. (Agronomy: Seed Technology) in 1986 from the University of the Philippines at Los Baños, Laguna, PHILIPPINES (SEARCA scholarship), he did a PhD in 1994 in Agricultural Science University from Hohenheim, Stuttgart, GERMANY (DAAD scholarship).</p>
	<p>U Pe Than GRET- Dry zone, Myanmar pethan2009@gmail.com</p> <p>U Pe Than is an Agronomist and now he is the National Project Manager for the Cartier Project, GRET- Dry zone, Myanmar.</p>
	<p>Dr Silinthone Sacklokham National university of Laos, Lao PDR s.sacklokham@nuol.edu.la</p> <p>Dr. Silinthone Sacklokham is Associate Professor in Agricultural Economics at the National University of Laos where she joined in 1995. She is a Vice Dean of Academic Affairs and International Relations at the Faculty of Agriculture. She is a lecturer on Farming Systems, Agrarian Systems, Agribusiness and Agricultural Policies. She has been collaborating with Asian, European and</p>

	<p>Australian research institutes and universities under research and academic exchanges including ALiSEA board of national experts. Her ongoing researches focus on Food Security in Northern Uplands of Lao PDR and the Impact of Chinese Agribusiness Investment in the livelihood of the upland farmers. She has experiences in planning and evaluation of rice organic development project in Lao PDR.</p>
	<p>Dr Ohnmar Khaing ACIAR, Myanmar khaing@aciar.gov.au or dr.ohnmarkhaing@gmail.com</p> <p>Ohnmar Khaing is holding a PhD and now working at Australian Center for International Agricultural Research (ACIAR) as a Program Manager in Myanmar. She has nearly 21 years of professional experience in food security, agricultural development and rural livelihoods, with special focus on science-policy interface; project design, development and management; capacity-building; policy advocacy and raising of public awareness.</p>
	<p>Dr Pham Van Hoi Vietnam National University of Agriculture phamhoi@gmail.com</p> <p>Dr Pham Van Hoi is a lecturer on agroecology and environmental sciences at Vietnam National University of Agriculture (VNUA). He completed his MSc on Sciences in Social Development at Ateneo de Manila University, the Philippines in 2003, and PhD on Environmental Sociology at Wageningen UR, the Netherlands in 2010. He is also involved into research and development projects on sustainable agricultural and rural sociology at the Center for Agricultural research and Ecological studies (CARES, VNUA). He remains as the executive director of CARES since 2013.</p>
	<p>San Wai Metta Development Foundation, Myanmar san.wai@metta-myanmar.org</p> <p>San Wai is holding a master degree of Development Studies and Bachelor of Agriculture Science. She is working with Metta Development Foundation since 2006 and working closely with farmers especially promoting farmer to farmer sharing knowledge via farmer field school model, local seed promoting initiative, natural resources management and community forest establishment. She is playing as a Food Sovereignty advocator.</p>

Dr Htet Kyu

Gret, Myanmar (ALiSEA national coordinator)

htetkyu@gret.org

Dr Htet Kyu, born in 1956, is an MSc (Soil Science) and PhD (Agronomy) degrees holder with a 23 year working service with Myanmar Agriculture Service (MAS) in Land Use Division and Seed Division. In collaboration with Yangon Technical University and Yezin Agriculture University, he also took part in providing series of lectures in soil fertility management and advanced crop physiology and guiding several scholars with their master and PhD research work. In 2004 he joined Gret-Myanmar in Northern Rakhine State as an agronomist and project team leader for food security project and livelihood development project. In 2008, he worked for UNDP Yangon as an agriculture specialist in the agriculture recovery project of Nargis cyclone affected five townships of the delta area. In 2009, he worked as an international agricultural extension specialist for the Nam Ngum river basin development project in Laos. Then from 2011 up till now, he resumed working again for Gret Myanmar as Technical coordinator in Dry Zone project for one year, as Country Representative for Gret-Myanmar for one and half year, project management advisor for Gret-MSN Bogale project for two years and now as national network coordinator for Myanmar in part-time basis for Gret ALiSEA project. Presently he is also an agriculture adviser to Myanmar Fruit Flower and Vegetable Producer and Exporter Association.

FERRAND Pierre

GRET, Laos

ferrand@gret.org

He is an agronomist, holder of a Master of Agronomy and Food Science from ISARA-Lyon, France, and a Master of Science in Tropical Agriculture Development from CNEARC (post graduate college for tropical agronomy) in Montpellier, France.

He has been working in the field of agriculture development for over 12 years, including 5.5 years in Myanmar (2006-2011) implementing Food and Livelihood Security Projects (agriculture development and extension, value chain development...) and 3.5 years at Gret Headquarters in Paris (2011 to 2015) as Project Officer in agriculture development and value chain.

Starting from May 2015, he moved to Vientiane, Laos PDR, to take part to a regional project (Laos, Cambodia, Myanmar) addressing the promotion of agroecology transition in South East Asia. He is in charge of facilitating the emergence and coordinating at regional level an Agroecology Learning Alliance, bringing together all relevant stakeholders active in the field of agroecology (CSOs, research centers, government officials, private sector).

	<p>REYNAUD Lucie GRET, Cambodia reynaud@gret.org</p> <p>Lucie Reynaud is an agronomist, holder of a Master of Agronomy and Food Science from ISARA-Lyon, France.</p> <p>She is working in the field of agriculture development for 4 years. She is currently Technical Advisor on APICI project called Development of sustainable agriculture for small holders in Siem Reap Province.</p> <p>Starting from May 2015, she takes part as the National coordinator in Cambodia to a regional project (Laos, Cambodia, Myanmar, Vietnam) addressing the promotion of agroecology transition in South East Asia.</p>
	<p>Justine SCHOLLE Gret Delta, Myanmar, scholle@gret.org</p> <p>Justine Scholle is an agronomist, holder of a Master of Science in Tropical Agro-Development, including agriculture and rural economy, from ISTOM, in Cergy-Pontoise, France.</p> <p>She is working in the field of agriculture development for 3 years, mostly on agroecology and agroforestry practices. Previously in Congo DR with Gret, she just arrived recently in Myanmar for 1.5 year as Technical Advisor in a rural development project, based in Delta.</p>
	<p>U Hla Min Chairman Myanmar Organic Grower and Producer Association hlamin@gmail.com</p>
	<p>Dr. Wayne Nelles Chulalongkorn University, School of Agricultural Resources (CUSAR), Thailand waynenelles@gmail.com</p> <p>Dr Wayne Nelles is currently Canadian Visiting Scholar at Chulalongkorn University School of Agricultural Resources (CUSAR) in Thailand. He has lectured at various universities in Canada and Asia, and consulted with international agencies such as the ADB, CIDA, IDRC, UNESCO and UNICEF. He has worked as a staff social scientist and department manager in the Consultative Group on Agricultural Research (CGIAR). He holds a PhD in Education and has published over academic 35 articles, working papers or edited books on education, environment, sustainability, human security, conflict analysis, peace-building, agriculture and food security as well as various learning materials. His most recent edited book is Nelles, Wayne, Anop Kunavongkrit, and Surichai Wun'gao Eds. (2014). <i>ASEAN Food Security and Sustainable Agriculture in a Green Economy: Cross Cross-Sectoral and Interdisciplinary Perspectives</i>. Bangkok: Chulalongkorn</p>
